I am a calm and courteous person. Throughout my various experiences and projects, I have developed great patience and skills to listen attentively to the needs of the team and clients. I consider these qualities essential in the field of software development. In addition, I am highly motivated and I find it important to keep developing professionally and to keep abreast of the latest technologies and methodologies.

PROFESSIONAL EXPERIENCE

HM Financial & Tax Consultant N.V.

IT Assistant / Junior Software Developer

Oranjestad, Aruba

June 2019–November 2024

- Designed and integrated RESTful APIs and microservices into internal financial applications.
- Collaborated with cross-functional teams to gather requirements and deliver tailored software solutions.
- Automated reports and data processing tasks, reducing manual labor and increasing reporting accuracy.
- Used SAP and QuickBooks for accounting tasks, enhancing workflow efficiency.
- Trained new staff on internal tools and IT best practices, improving onboarding time and knowledge retention.

Eduard2&Asociados.

IT Computer Assistant

Carabobo, Venezuela

May 2017–October 2018

- Provided first-level support for software, network, and hardware issues across 50+ devices.
- Assisted in IT infrastructure setup, including the configuration of secure workstations.
- Maintained system documentation and contributed to improved internal IT procedures.
