

STEVEN SAWARIN

SOFTWARE DEVELOPER

I am a calm and courteous person. Throughout my various experiences and projects, I have developed great patience and skills to listen attentively to the needs of the team and clients. I consider these qualities essential in the field of software development. In addition, I am highly motivated and I find it important to keep developing professionally and to stay up to date of the latest technologies and methodologies.

EXPERIENCE

Freelance work

Tilburg, The Netherlands

Currently working on multiple projects as freelancer.
2024- Current

Operational & Logistics Roles (temporary)

Tilburg, The Netherlands

PostNL / delivering services
September 2025 - Current

Currently working in temporary roles while seeking a web developer / IT position aligned with my academic background.

Voluntary work with immigrants

Càdiz, Spain

Guerroca

November 2023 - August 2025

During the period that I lived in Spain I worked together with a foundation to help and educate immigrants from Africa by teaching them about the culture and help them with building and maintaining a healthy lifestyle.

IT Assistant / Junior Software Developer

Oranjestad, Aruba

HM Financial & Tax Consultant N.V.

June 2019 - November 2023

Designed and integrated RESTful APIs and microservices into internal financial applications. Collaborated with cross functional teams to gather requirements and deliver tailored software solutions. Automated reports and data processing tasks, reducing manual labor and increasing reporting accuracy. Used SAP and QuickBooks for accounting tasks, enhancing workflow efficiency. Trained new staff on internal tools and IT best practices, improving onboarding time and knowledge retention.

IT Computer Assistant

Carabobo, Venezuela

Eduard2&Asociados

May 2017 - October 2018

Provided first-level support for software, network, and hardware issues across 50+ devices. Assisted in IT infrastructure setup, including the configuration of secure workstations. Maintained system documentation and contributed to improved internal IT procedures.
